

Civil Construction & Hire (CCH) WHS Manager

About the role:

The role is responsible for performing the delivery of diverse and contemporary safety approaches and practices within the civil construction arm of the business. The role consults with the Group Health & Safety Manager, Business Unit management and leads project based WHS officers to identify priorities and is expected to provide high quality outcomes within established priorities as directed.

Responsibilities:

- Lead the WHS function within the CCH business segment to ensure WHS management systems and practices meet legislative requirements and align to industry best practice
- Support and coach project based WHS officers to ensure projects are delivered in line with legislative and client requirements
- Consult with the Group WHS Manager to recommend solutions to trends and issues affecting the business in line with MGH core values and vision
- Deliver tailored WHS advice and support across legislation, policies processes to influence better practice WHS performance and outcomes
- Provide expert WHS knowledge and coaching to key stakeholders to support the implementation of MGH corporate plans and priorities
- Conduct and participate in audits, workplace inspections, incident investigations, risk assessments, training initiatives and other safety-related functions
- Developing and reviewing safety system documentation such as, policies, procedures, and manuals
