

## Underground Electricians

### About the role:

JLE Group is a national electrical engineering and contracting company with a base in Perth, specialising in design, manufacture and installation of HV and LV power systems including mining, commercial and industrial electrical installations.

We are currently seeking motivated and passionate underground electricians to join our dedicated team at our Perth depot on a casual basis to provide shift and project coverage to our mining clients. This opportunity also has the possibility of becoming permanent by changing over to the client after a period for the right candidates.

This position requires the successful applicant to perform duties as an underground electrician including but not limited to drill breakdowns and maintenance, 1000V and 11kV power installations, pump repairs, underground communications. Good communication skills are essential. WA Electrical trade qualifications are essential for consideration of this position.

The position offered is casual. Above industry rates will be offered to the right applicant. The offered rate will be based on qualifications and previous experience.

### Qualifications & Experience required include:

- Qualified electricians, with proven experience.
- WA White Card
- Ability to work unsupervised as well as part of a team.
- Thorough knowledge of safety procedures / WHS requirements.
- Excellent time management & problem-solving abilities.
- Availability to work FIFO
- Reliable, with a great work ethic.
- C Class Driver's license.
- HV switching qualification is advantageous.

If you think you would be a great fit for this position, please send up to date resume & cover letter outlining your skills to
